• **Conference Introduction:**

The Shenzhen International Dental High-Tech Expo (SDHE), aims to become an influential international event in the field of dental high-tech, integrating high-tech showcases, summit forums, academic exchanges, and collaborative partnerships. SDHE will also serve as a vital platform for China’s dental high-tech industry to engage globally, akin to the significance of Cologne Exhibition in the dental sector. The exhibition covers dental equipment, new technologies, applications, and materials, accelerating the release of more new demands in the dental industry. This enriches the expo, making it more diverse, comprehensive, and professional. It showcases cutting-edge dental technologies, providing a high-quality platform to seek core dental technologies and manufacturing solutions. The expo facilitates the connection between the production and sales of the dental industry chain, and academic conferences promote industry and product technology updates and promotions, seamlessly aligning with the world.

• **Exhibition Highlights:**

1. Showcasing high-tech advancements, new products, and new materials in the dental industry.
2. Establishing a premium platform for trade and technical exchange in the dental industry.
3. Highlighting as a one-stop service platform for showcasing dental brands.
4. Free admission with complimentary shuttle buses arranged for attendees to visit and learn.
